

Post ACA State Level Uninsurance Estimates

Preliminary Results from the National Health Survey (NHIS) Early Release Program

The NHIS Early Release (ER) Program produces preliminary uninsurance estimates quarterly. The January through September 2014 results provide the first opportunity to examine the impact of the Affordable Care Act on insurance coverage using large-scale federal survey data. These results are preliminary, and are subject to revision.

Percent Uninsured at Time of Interview (all ages)
January - September 2013 and January - September 2014

2013 2014

*Statistically significant (0.95%)
